Student Systems Programme update

Elaine Aitken
Scott Cridland-Smith

8 December 2015

Agenda

- Admissions project
- SITS:Vision for Colleges project
- Other projects
- Questions

Graduate Admissions

Divisions, departments and colleges able to manage applications, including record decisions, and manage applicant CAS requests in eVision

Funding functionality for central funding team:

- Scholarship eligibility
- Ability to record central scholarships
- Reports + Graduate Scholarships Awarded during Application Cycle dataview

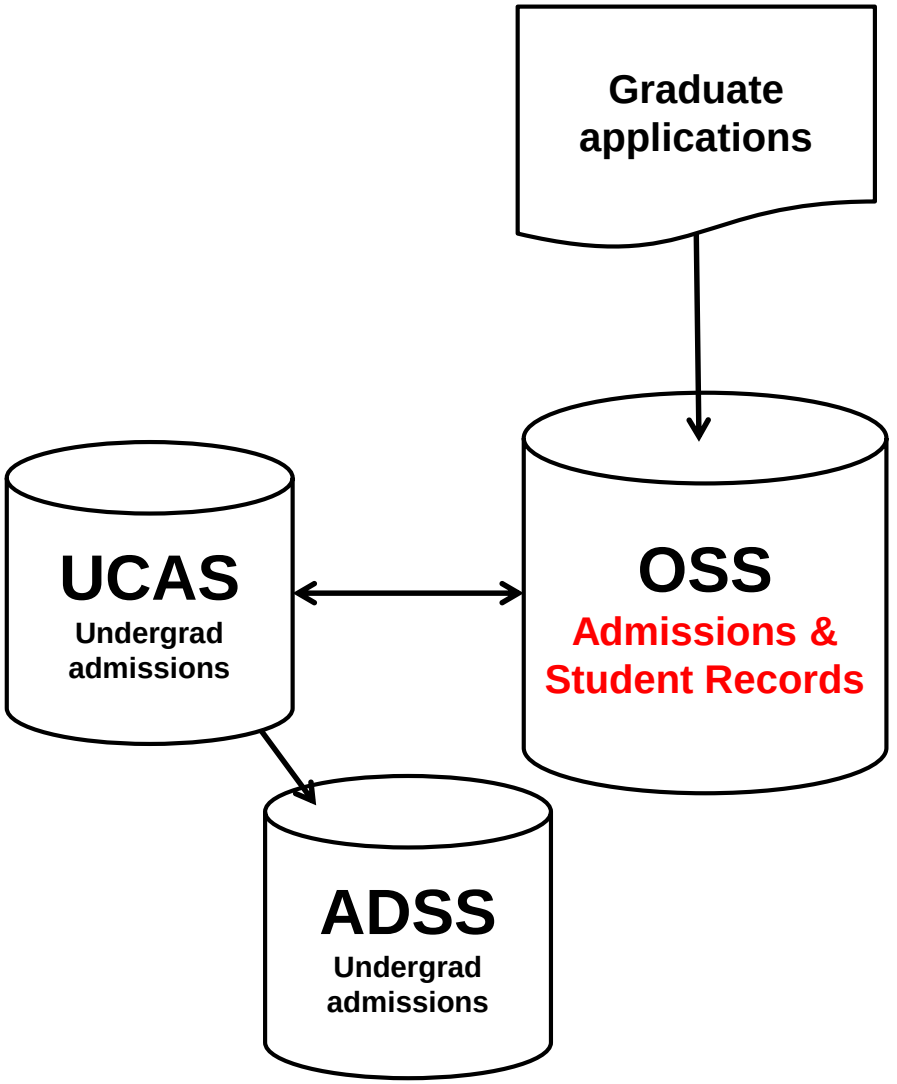
Undergraduate Admissions

eVision functionality for UAO, colleges and departments

- Post offer changes
- Single certificate verification (non-ABL)
- Applicant response to offers

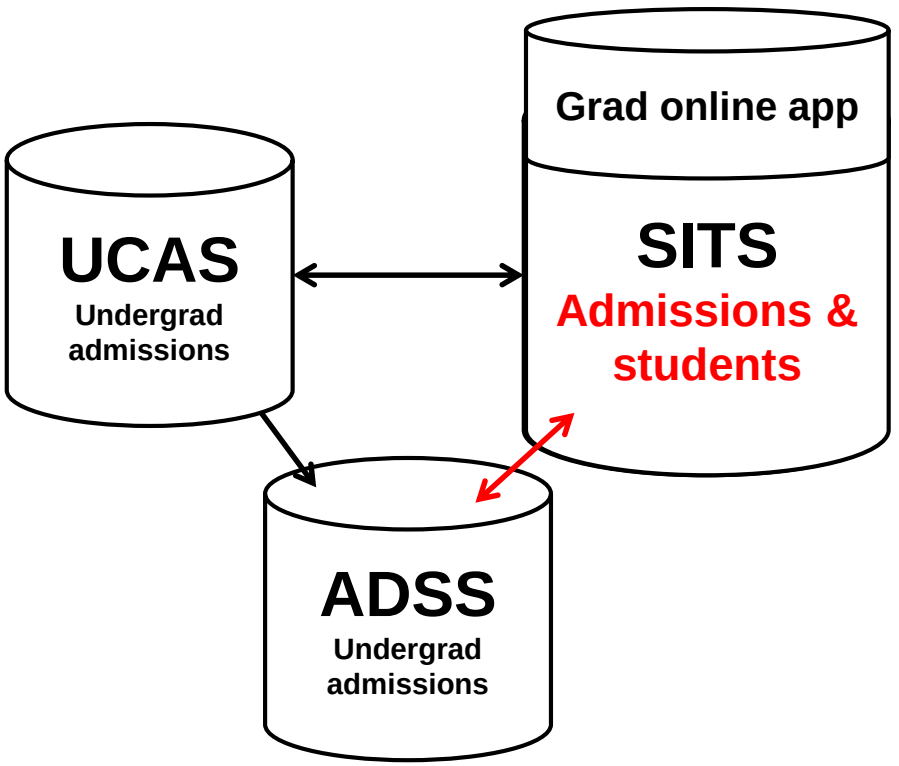
- Results matching
- Confirmation
- Post confirmation processing

2014…



Graduate applications
UCAS
Undergrad admissions
OSS
Admissions & Student Records
ADSS
Undergrad admissions

For 2015/16…



Grad online app
SITS
Admissions & students
UCAS
Undergrad admissions
ADSS
Undergrad admissions

Interfaces to other systems

Service	Send/receive	Undergraduate/Graduate
UCAS	Both	Undergraduate and PGCE
ADSS	Both	Undergraduate
ADSS to ADMIT	Send	Undergraduate

Key points for ITSS

- No desktop impact: system accessed via a browser
- Minimal impact for CUD data feed
  (Admissions schema is the same, with some reference data changes, e.g. application status)
- Questions from you and your users welcome as always: ssp@admin.ox.ac.uk

Reporting performance

- Since 5 October on-course dataview search parameters should load between 50-70% faster
- List of dataviews has been categorised to make it easier to find the correct one
- Admissions dataviews have been designed differently ‘under the hood’ to run faster

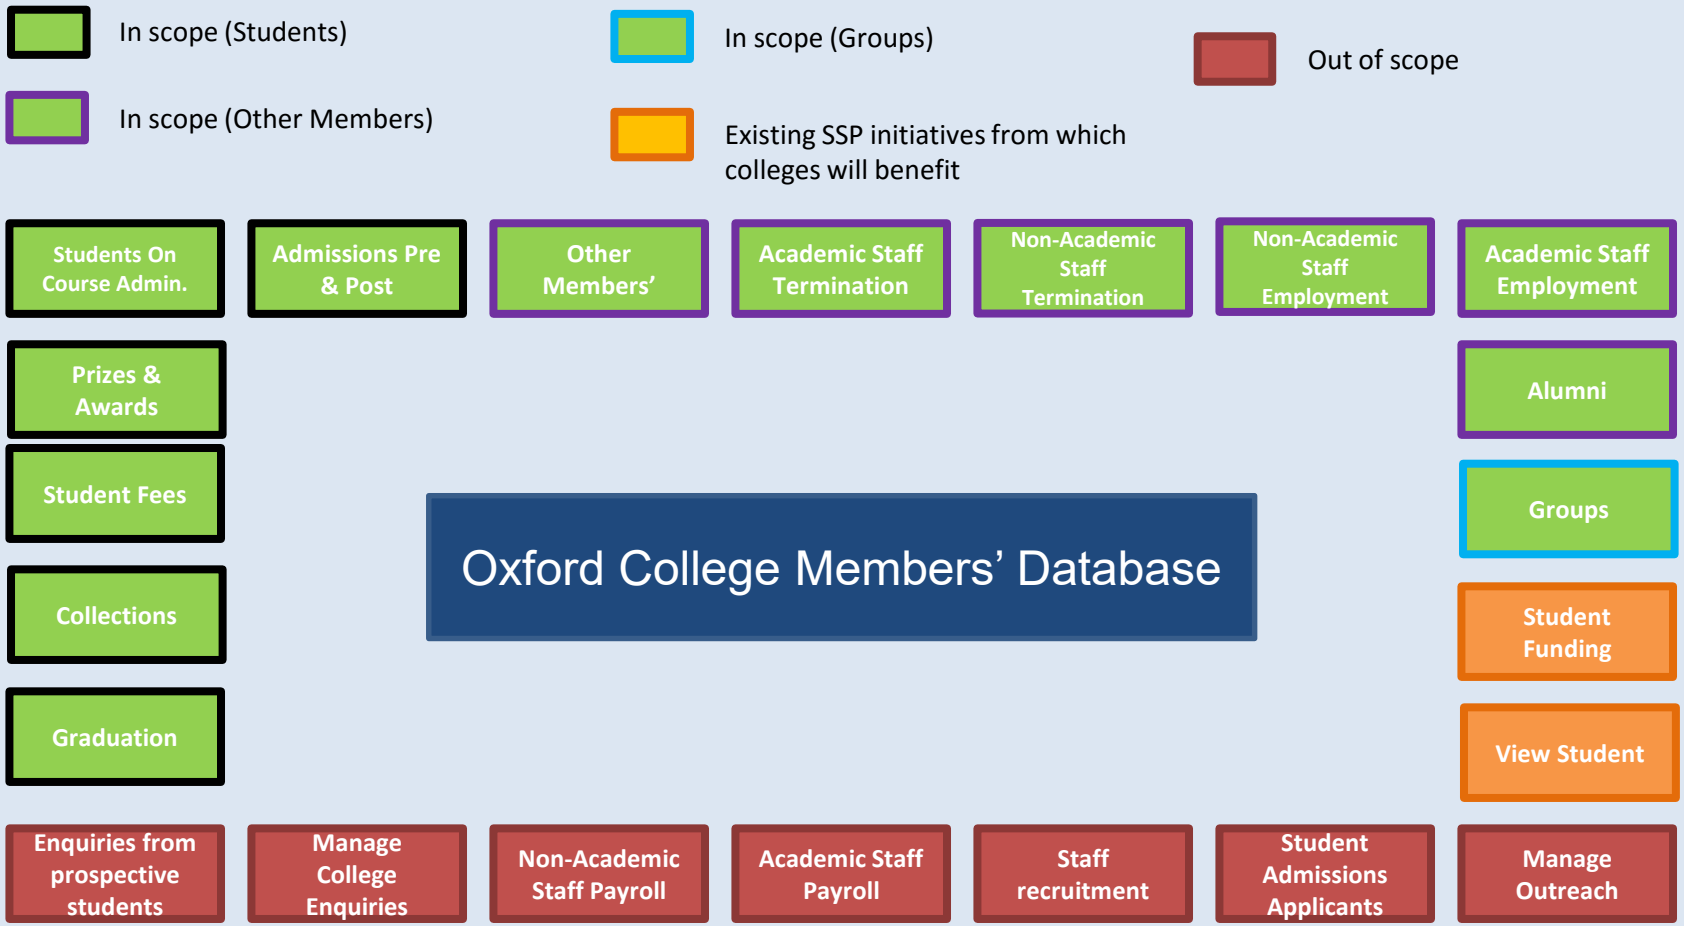
UNIVERSITY OF OXFORD

SITS:Vision for Colleges

SITS:Vision for Colleges

- Started with *feasibility* study initiated at request of several colleges to assess whether SITS:Vision can manage their local academic records
- Resulted in implementation proposal
- 14 Colleges applied for funding based on the proposal to deliver the system and shared service by September 2016
- University is sharing initial cost in expectation of recouping this from additional colleges joining at a later stage

Scope



In scope (Students)
In scope (Other Members)
In scope (Groups)
Existing SSP initiatives from which colleges will benefit
Out of scope
Students On Course Admin.
Admissions Pre & Post
Other Members'
Academic Staff Termination
Non-Academic Staff Termination
Non-Academic Staff Employment
Academic Staff Employment
Prizes & Awards
Student Fees
Collections
Graduation
Oxford College Members' Database

Michaelmas term

Other SSP projects

Financial Support and Funding

- Functionality to collect data about financial support provided to students by University and colleges
- Improved fee calculation during admissions process

View Student

- Quick and easy screens for academic and administrative staff to look up their students' details
- Aim is to replace use of dataviews for quick queries
