- Innovation and Technology Exhibition – 11 December

Windows XP readiness

- Survey from 2-11 April 2014
- 70 Responses - thank you!
- People largely in a good state with risks mitigated or removed
- One or two concerning comments that we'll address individually
- University has bought into Microsoft Platinum Support agreement so we can get access to XP patches etc. for 12 months
- Details still being finalised but use will be via ITS3
- Don't forget Sarah's advice that you can ask around itss-d for help and cast-off machines
- Thank you very much for taking the shared responsibly of network security seriously

Don't forget

Gartner GTP: see https://wiki.it.ox.ac.uk/itss/GartnerGTP

Gartner for Technical Professionals (GTP) is aimed at technical staff. GTP comes from a takeover by Gartner of Burton, a company specialising in 'how to' plans and advice aimed at front-line technical professionals. GTP supplements strategy, planning and management guidance that was traditionally provided by Gartner.
